OUR MISSION

Speech Academy Asia was founded to close the gap in speech and presentation skills that are often overlooked in today's education system. Unlike countries such as the USA, France and Switzerland, local schools place limited emphasis on public speaking.

To bridge this gap, we created Speech Linguistic Patterns™ (SLP™), a structured and accessible methodology that makes teaching and learning public speaking easy and effective. Our system allows teachers, professionals, parents, or members of public to pass on essential speaking skills with confidence, helping more people build presence, rapport and self-belief.
